

# BEAR CREEK SERVICES, LLC

FLUID MANAGEMENT TRANSPORT & DISPOSAL

Your Trusted Advisors [www.bearcreekservices.net](http://www.bearcreekservices.net)

## Our Mission

*Our mission is to manage your projects like they are our own, using our combined experiences and knowledge base to deliver solutions leading to your success.*

## Our Philosophy

**Bear Creek's** business philosophy is one of building long-term trust and understanding with you and your company in order to better serve your needs. Our people have extensive backgrounds in the employ of companies just like you.

We at **Bear Creek** believe that effective cost and time management blended with a practical approach to our services can be better achieved by a company whom you trust and who understands your corporate philosophy.

Let **Bear Creek** be—**YOUR TRUSTED ADVISORS.**

## Company Profile

Bear Creek has offered vacuum trucks, frac tanks, and commercial fluid disposal since 2001 and expanded into environmental consulting in 2005. Engineering was added in 2006 with the merger of Bear Creek and McGinnis Industries, which has provided consulting petroleum engineering and wellsite supervision since 1990. Our combined expertise allows us to effectively provide comprehensive services that put our clients' needs first.

### Locations:

Bear Creek is based in **Shreveport, Louisiana**, with satellite offices in: TEXAS-Dallas, Houston and Panola County. LOUISIANA-Gibbsland and Bryceland.

OKLAHOMA , Tulsa.

## Meet Your Trusted Advisors

Bear Creek's Fluid Management group focuses on satisfying the needs of the oil and gas industry. Our goal is to work with our clients on an individual basis to understand their needs. Doing this allows us to provide a higher quality of service and support.

Our professionals and support staff have over one hundred years of combined transport and disposal experience in the oil and gas industry. Together we understand what it takes to provide quality and reliable service.

Our management, dispatchers and drivers know north Louisiana and east Texas like their own backyards. That experience gives us unique insight into your needs. So tell us your goals. We're with you every step of the way.

**Bear Creek can get you where you want to go.**

## Bear Creek's Fluid Management Services Include

Bear Creek's fluid management division maintains a fleet of thirty vacuum trucks, which are dispatched out of our trucking facility located in Gibsland, Louisiana. We have a staff of professional drivers and offer our services at very competitive rates for operators across north Louisiana and east Texas. Additionally, we offer pressure trucks, fluid sales, frac tank rentals and disposal services in order to meet all of your fluid management needs.
